

ON BEING THOROUGH

Not being thorough is a big part of dowsing failures!

- What did you ***not know*** about the subject matter to ask?
- Or ***forget*** to ask?
- Or ***forget to do*** like getting into & staying in the proper mindset?
- Or ***checking for & clearing*** detrimental energies such as
 - Stuck emotions?
 - Detrimental beliefs of yours, or those around you?
 - Detrimental energies such as mass consciousness, geopathic zones, psychic attack or other or deliberately sent, detrimental energies & malevolent intentions?
- Or writing down **GOOD QUESTIONS - CLEAR, SPECIFIC, & COMPLETE**, & finally
- Clearing each issue or problematic relationship ***throughout time!***

If you have been frustrated with the same issues & problems cropping up despite your best efforts to resolve them, you are clearly missing something. In every problem there is a root cause as well as significant related events that can be below the level of conscious awareness as they can stem from the dim past & only re-triggered by a current situation. Dowsing is ideal in both locating & addressing these unconscious factors. Let me show you how in this intensive, comprehensive workshop!
